

Featured Expert:

Rachel Linck, Ph.D.

PROFESSIONAL HIGHLIGHTS

Dr. Linck completed her doctoral research in the lab of Professor Thomas B. Rauchfuss at the University of Illinois at Urbana-Champaign where she specialized in inorganic chemistry. While a student, she excelled at organometallic chemistry and spectroscopy and has published several papers and posters regarding her investigations. Rachel finished her academic career with many awards and accolades, including the T.S. Piper Award for Outstanding Contributions to Inorganic Chemistry.

After earning her Ph.D., Dr. Linck worked as a postdoctoral research associate in the laboratory of Professor Judith N. Burstyn at the University of Wisconsin where she specialized in bioinorganic spectroscopy.

In 2006, Dr. Linck joined Chemir as a Senior Analytical Chemist where she executed experiments using a variety of methodologies and instruments including NMR, HPLC, FT-IR, LC/MS, SEM/EDXA and UV-Vis. In 2008, Dr. Linck was promoted to Project Leader - Technical Services. In this role, she uses her knowledge of chemistry and analytical procedures to work with clients and design investigations that meet their individual needs.

While at Chemir, Dr. Linck has participated in numerous litigation support activities including the design and preparation of investigative studies and providing expert testimony.

EDUCATION

Ph.D. in Chemistry
University of Illinois at Urbana-Champaign, 2004

B.S. in Chemistry
Duquesne University, 1999

AFFILIATIONS

American Chemical Society
